MORE **ROBUST** THAN EVER

SIDEWALK SNOWPLOW

KL6500 HD

This new one-piece moldboard snowplow is more than just a next-generation snowplow. The new self-levelling system makes this model sturdier, more versatile and easier to maintain than ever.

The horizontal self-levelling and anti-shock systems allow for a difference of 25 to 30 degrees in angle adjustment. The optional horizontal hydraulic pivoting system is easy to install and doesn't require any modifications to the original snowplow.

MODELS, DIMENSIONS AND WEIGHTS

↔ WIDTH	↑ HEIGHT	LB APP. WEIGHT
53 in.	26 in.	734 lb.
56 in.	26 in.	760 lb.
60 in.	26 in.	775 lb.
72 in.	26 in.	810 lb.
